The End of Materialism is a thoughtful and penetrating book that shows how an open minded look at psychic phenomena can undercut the tendency of scientists to reject not only the possibility of mind influencing brain but also broader spiritual realities. Tart is a scientist, hardly anti-science, and clearly believes that science has something to offer.

The End Of Materialism

'The End of Materialism' is an excellent, thought provoking book from veteran parapsychologist/ consciousness researcher Charles Tart. I was really looking around for a high quality rebuttal to the prevailing scientific paradigm of materialism, the dogma that everything in this universe, including us, is mere matter.

Materialism is a form of philosophical monism that holds that matter is the fundamental substance in nature, and that all things, including mental states and consciousness, are results of material interactions. According to philosophical materialism, mind and consciousness are by-products or epiphenomena of material processes (such as the biochemistry of the human brain and nervous system ...

Tart says he wrote *The End of Materialism* "to help those who've experienced conflicts between their spiritual and scientific sides, or who are simply interested in aspects of science and the spiritual." These days I fall into the latter category (who doesn't?)

book review -The End of Materialism by Charles T. Tart ...

THE END OF MATERIALISM is an excellent book, noteworthy more for what it DOESN'T say than what it does. It is totally free of the Hippie bias that I found in all the books I bought from IONS in the 1990s. You know the stuff -- rejecting science, logic, ego, and psychotherapy, trashing the words "truth" and "reality," and repeating over and over ...
